

CALIFORNIA EMERGENCY MANAGEMENT AGENCY

GRANT MANAGEMENT MEMORANDUM (GMM)

2009-003

Date: May 15, 2009

To: All California Emergency Management Agency (CalEMA) Grantees

From: Cal EMA Grants Management Division

RE: Bond Funded Infrastructure Projects Restart

Effective immediately, all Proposition 1 B funded projects suspended due to GMM 2008-043 issued on December 23, 2008, can resume work.

The State Treasury's Office (STO) announced that proceeds were available from a bond sale. Based on estimated cash flow needs that departments provided to the STO, the bond proceeds are sufficient to pay the balance of outstanding obligations (i.e. "unpaid bills"), and pay for estimated project needs going forward until a subsequent bond sale. Bond funded projects that had been committed or awarded that were suspended prior to completion of necessary agency approvals may restart.

These bond proceeds are intended to satisfy obligations made for projects already started or grant commitments already made. CalEMA is still not authorized to make new grant awards until further notice.

The specific grant programs that are affected are the following:

- FY 07/08 Intercity Passenger Rail/Commuter Rail Systems – 15%
- FY 07/08 California Transit Security Grant Program – 60%
- FY 07/08 Regional Public Waterborne Transit – 25%
- FY07/08 California Port and Maritime Security Grant Program
- FY08/09 Intercity Passenger Rail/Commuter Rail Systems – 15%
- FY08/09 California Transit Security Grant Program – 60%
- FY08/09 Regional Public Waterborne Transit – 25%
- FY08/09 California Port and Maritime Security Grant Program

For further information or assistance, please feel free to contact your CalEMA regional representative.

Sincerely,

Brendan A. Murphy
Deputy Director
